

## axytos COMPANY PORTRAIT

axytos is your innovative BUY NOW PAY LATER enabler. START NOW!  
axytos BUY NOW PAY LATER – real white label solutions for your company.

The entire BNPL world in B2B, B2C, B2B2C and D2C without default risk: purchase on account, direct debit, instalment payment, partial payment with fixed (pay in X) or flexible instalments.

Individual BNPL as a service solution for producer, trade, e-commerce, banks, payment service providers and marketplaces for international use.

In addition, the unique axytos platform enables digital business models to be easily set up, flexibly adapted and immediately monetised via a single API and according to the plug & play and pay-per-use principle. And this modularly along the entire financial lifecycle: from address validation and risk assessment to multi-disclosure, fraud, KYC, credit check and active payment method control to dynamic contract design, accounts receivable management, dunning and debt collection.
